Front panel of unit

1. SD card port
2. USB port
3. Previous
4. Next
5. Play/Pause

- 1. It may take a little bit longer to load when the capacity of the USB device and/or SD card has more than 8GB in storage. It is recommended to use a USB device or SD card that has less than 8GB.
- 2. USB and SD automatically switch playing.
- 3. When using the SD card function, it is required to use an SD card which has memory that is greater than 512 MB and is also a legal edition.

System connection diagram

SPEAKER TERMINALS

Connect left satellite speaker into L terminal of Audio Output.

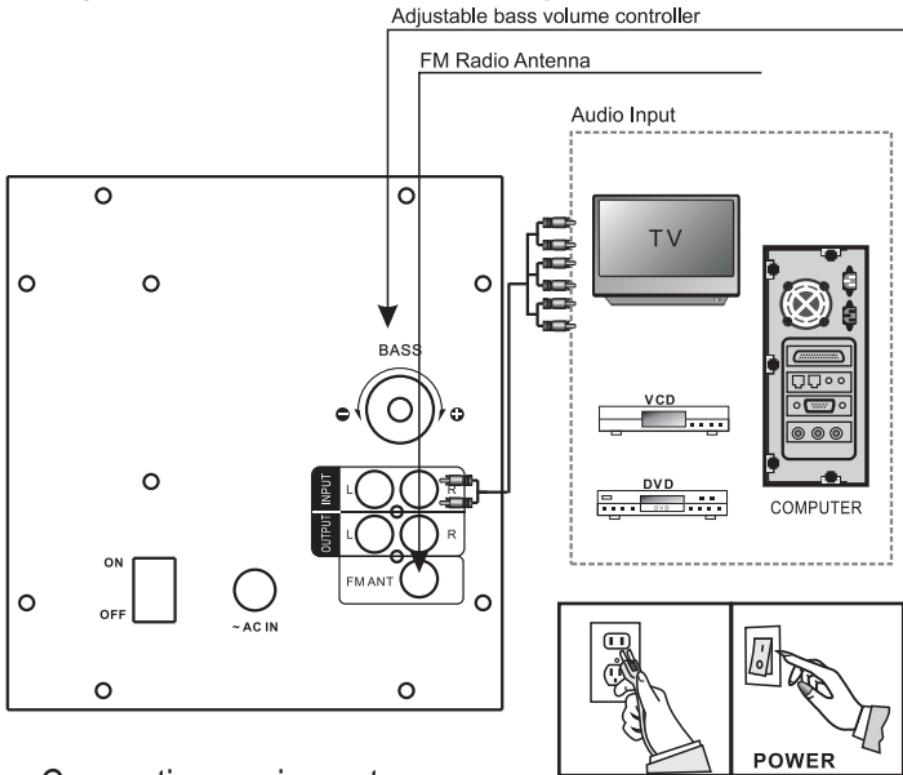

Connect right satellite speaker into R terminal of Audio Output.

NOTE:

*Do not leave magnetic objects near the speakers.

System connection diagram

Connecting equipment

Jacks and plugs of the connecting cord are color-coded as follows:
Red jacks and plugs: For the left channel of audio signals.

NOTE:

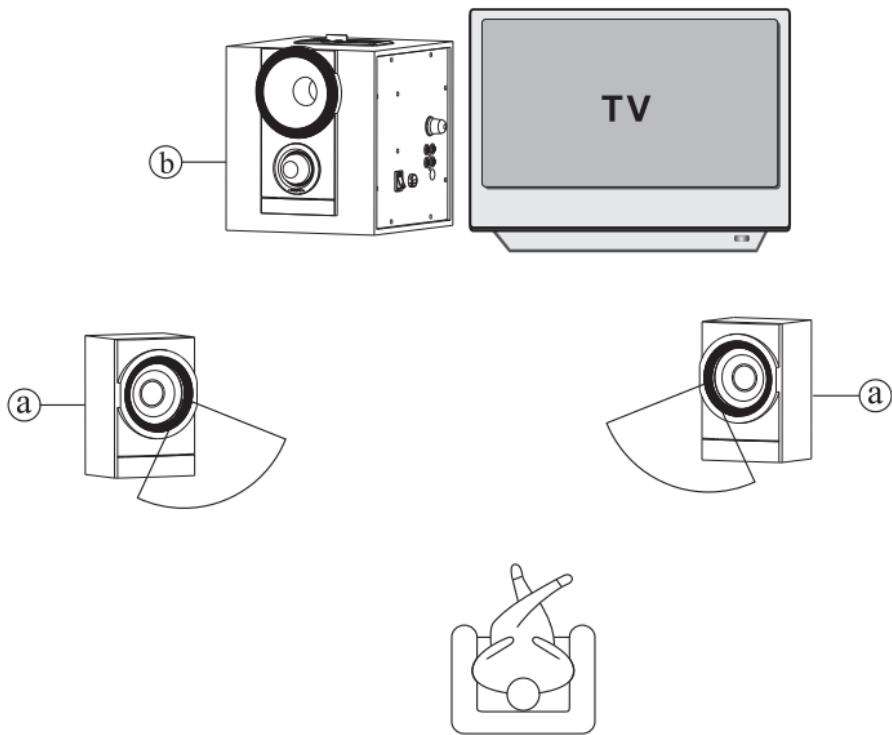

Insert the plugs fully into the jacks. Loose connections may produce a humming sound or other noise interference.

Important:

Connect the speakers and all other external equipment first, and then connect the AC power cord.

Positioning the speakers

(a) Speakers

(b) Subwoofer

Place the subwoofer any place on the floor.

(There is no directional requirement for the bass effect.)

WARNING!

Mobile Phone (via USB), Portable Hard Drive, MP4, and some other USB-powered electronics may not be compatible with this product.

Federal Communications Commission (FCC) Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications made to this device not expressly approved by SHENZHEN CITY ENKOR ELECTRONICS LIMITED. May void the FCC authorization to operate this device.

Note: The manufacturer is not responsible for any radio or tv interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
